

Hunter 203H ESD Soldering Station (Lead Free)

- Excellent Heat Recovery
- Auto Sleeping & Shut Off mode for Power saving
- Temperature Locked by using Password
- Easy replacement on iron tips without changing Sensors
- ESD Safe by design

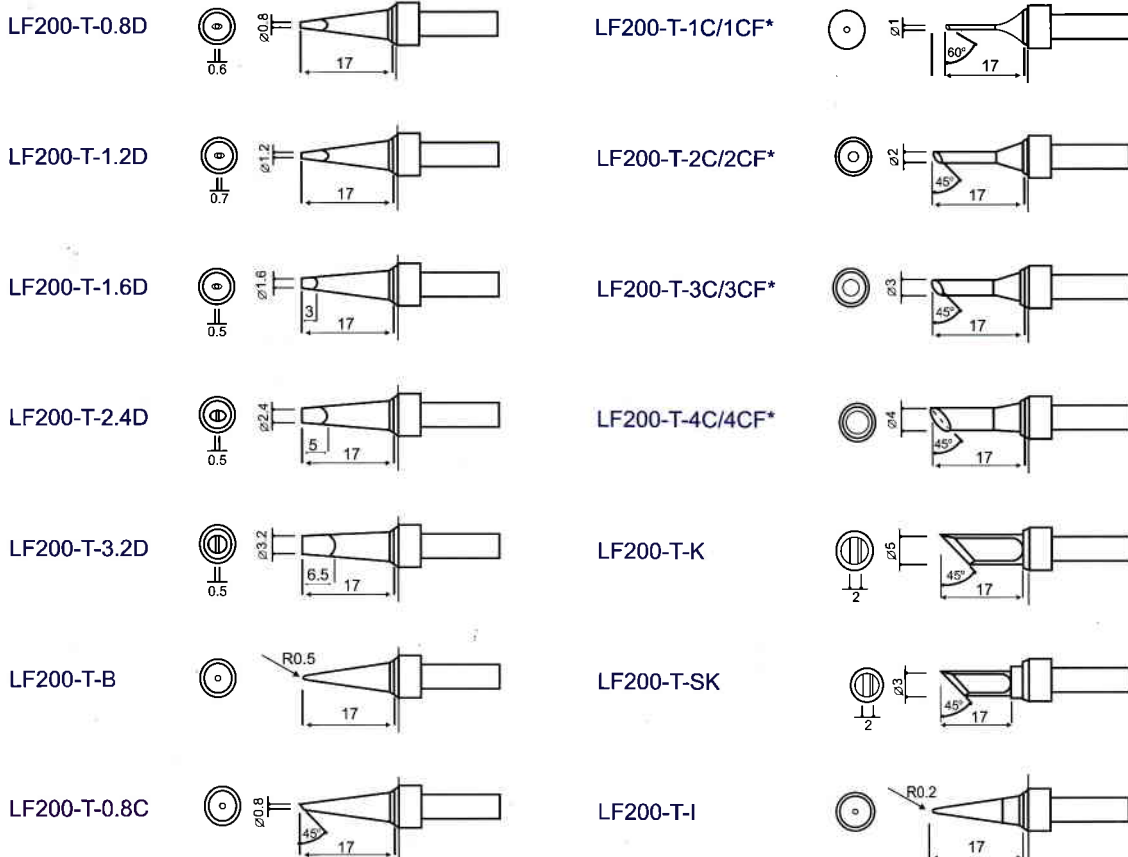

Specification :

Temperature Range : 50°C ~ 600°C
 Temperature Stability (No Load) : ±2°C
 Power Consumption : 90W
 Temperature Rising Time : 25 Sec. (20°C to 350°C)

Temperature Recovery Speed : 8 Sec.
 Tip to Ground Resistance : < 2Ω
 Tip to Ground Potential : < 2mV
 Display Mode : Digital

Replacement Tip for Hunter 203H Soldering Station

* CF = Tinned on solder surface only *

* Custom made is available *
